

Quick Reference Guide

OCTOBER 2022

Quick Reference Guide

INSTRUCTIONS:

- 1. Locate the type of business that you will be operating. Note that not all businesses require a state/county business license. Check with the municipality to determine if a municipal license is required.
- 2. Code Section(s) Required refers to the code section(s) as identified in Title 40, Chapter 12, Code of Alabama, 1975.
- 3. Multiple licenses may be required depending on your business operation. For example, if operating a restaurant, you may be required to obtain a §40-12-151 (restaurant license), a §40-12-69 (beverage license) and a §40-12-315 (store license). See the listings under Possible Additional Code Sections, and Additional Notes for each type of business operation.
- 4. If your business or industry is regulated by a board, commission, or trade association, you may be required to present their certification prior to receiving the state/county business license. For a list of all state boards and agencies that regulate the licensing of businesses or occupations in Alabama, visit https://www.revenue.alabama.gov/business-license/municipal-business-license-information/ and click on List of Agencies Sorted by Name.
- 5. Licenses must be renewed each year by October 31, or a 15% penalty, plus interest, will be applied.
- This guide was prepared to assist county licensing officials, as well as business owners and operators.
 It is not intended for this guide to replace or set forth any regulations pertaining to the business license statutes.

Type of Business	Code Section(s) Required (all code sections found in Chapter 40-12)	Possible Additional Code Section(s) in Chapter 40-12	Additional Notes *
